**JOIN THE GOODNESS MOVEMENT**

# MORELIFE LESSMEAT

## Plant Based Pioneer

We believe that life is better when you eat less meat. Better for your health, better for animals and essential for the future of our planet. It's something we've been working on in the Netherlands since 1990! We hope that offering the tastiest vegetable products will get everyone to shift their habits and make a difference.

## Join the goodness movement

We're here to help all those with good intentions to eat less meat; everybody who wants to make a difference, and knows the potential impact. If we all pull together, small changes become big. So, let's eat less meat, encourage others to do the same, and make the world that little bit better together, bite by bite. In this way, we can unleash a true Goodness Movement; delicious and tasty, better for you, and a Happy Planet!

**#MORELIFELESSMEAT**  
**#GOODNESSMOVEMENT**

**100% TASTE**

**100% PLANT-BASED**

More and more people are embracing a flexitarian lifestyle and are increasingly looking for plant-based options out of home where they don't have to compromise on taste. This is especially important in the out-of-home sector where it all revolves around gastronomy, taste and experiences. That is why Vivera has focused during all these years on product development ensuring excellent taste. We know exactly how to create the right structures and flavours, and you can taste the difference!
